

PAPER RECYCLING

Paper recycling activity was assigned by Eco Club to all the students from class-I to X and they actively participated in this activity and showed up their talent.

Through this activity students are able to understand that recycling of paper is the process by which paper is turned into new useful product. Recycling of paper also help to reduce the harmful producing gases through its waste.

In the activity students created different things like Photo frames, Wall hangings, Flower vase, Wall clock by using old newspapers. They also used other waste material in this activity. It was very good to see that our Columbians are too expressive, creative and also understood the value of paper recycling.

After this activity students are now conscious not to waste the paper and we need it in judicious way.

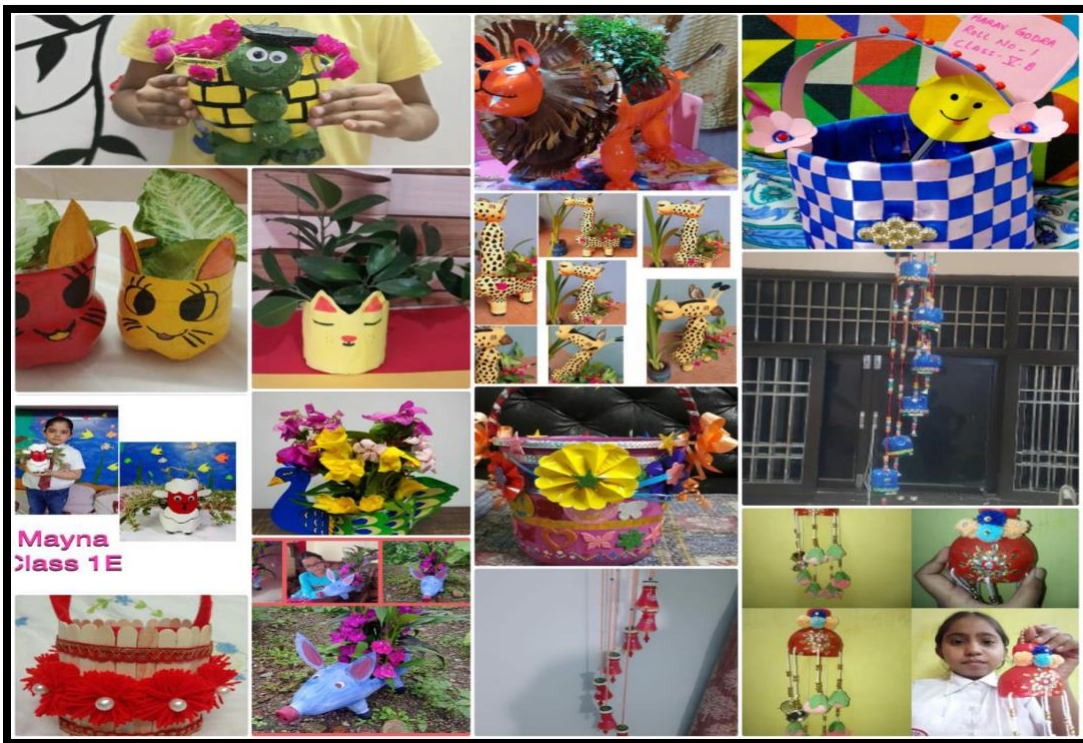

REUSE OF PLASTIC BOTTLES

Reuse of plastic bottles activity was assigned by Eco Club to all the students from class-I to X and they actively participated in this activity and showed up their talent.

In the activity, students have designed unique animal planters, basket, wall hanging and hanging planters and also gave the message to slow the flow of plastic at its source.

The curiosity to learn and the will to create a change were clearly seen in the efforts of the students. As plastic is one of the most versatile substance on Earth, but also one of the biggest contributors to environmental pollution. So, students have learnt that plastic is a curse for our nature and we should limit the use of plastic in our lives.

It was an educative and informative initiative taken by the school to generate the awareness among students.

BIRDS AS ENVIRONMENT INDICATORS

Watching birds is a mind refreshing activity, especially when they are continuously twittering around you. If we make a feeder or a bird house with some waste materials from our house and serve some food for the birds, they will be very grateful to us. And in this way, we will be able to enjoy the nature all year round.

Now days, it has become difficult for birds to find food and shelter for their survival especially in the urban areas due to lack of nesting grounds and proper food. Students of class I to X took initiative towards helping birds to survive.

WILDLIFE CONSERVATION ACTIVITY

Wildlife is an important part of the natural resources and they play an important role in balancing the environment. Wildlife and nature have been largely associated with humans for emotional and social reasons. The importance of wildlife can be categorized as ecological, economic and investigatory importance as well as conservation of biological diversities and so on. Plants give shelter to the animals and together they maintain our ecosystem for our survival. Students made Animal face mask, Finger puppets, Animal clay crafts and PPT's. Students recited a poem on save animal and also gave the message on wildlife Conservation. So, students have learnt that our life is almost impossible without the support of wildlife. It plays a very crucial role in our life.

PAPER MACHE ACTIVITY

Paper Mache is one of the oldest crafts of Kashmir of over 700 years and since that time it has been used to craft paper pulp objects as richly decorated artifacts. Today paper Mache sculptures are used as an economical building material for a variety of traditional and ceremonial activities, as well as in arts and crafts. This activity helps the students to develop cooperative skills, sensory skills and cognitive skills. Paper Mache is a composite material consisting of paper pieces bound with a glue, starch or wallpaper paste. Students were taught the making of paper Mache mixture and how it can convert into beautiful forms like bowls, masks, hot air balloons and animal puppets. The students enthusiastically themselves created the same and enjoyed doing the activity.

SWACHCH BHARAT ABHIYAN

It is everybody's responsibility and one should keep themselves and their surroundings clean and hygienic. It also brings good and positive thoughts in the mind which slows down the occurrence of diseases. Under this programmed all the students had participated. Even teachers were the essential part of this drive . Both students and teachers took the pledge that they will work towards swachch bharat and use the reusable things. Also performed various activities like Green School Drive Days, Hand wash Day, Personal Hygiene Days, Swachhta Action Plan Days. After performing the above activities students are now able to understand the importance of cleanliness, Harmful effect of plastic use and importance of Covid protocols in their life.
