## SUBJECT-SCIENCE

**Read the following case-based passage and answer the following question.**

Aarav loved eating chips, pizza, and chocolates every day. He never liked fruits or vegetables. One day, he visited his grandmother's garden. She gave him a small seed and said, "Plant this seed and take care of it."

Aarav planted the seed in soil. Every day he gave it water and kept it in sunlight. After a few days, a tiny plant came out of the soil. Aarav was very happy. He learned that seeds need air, water, and sunlight to grow.

Soon the plant gave fresh tomatoes. Grandmother used them to make a healthy salad. Aarav ate the salad and liked it very much. He understood that healthy food makes us strong and active, while junk food can make us weak and sick.
